CROSS-WORD PUZZLE NO. 65

HOW TO SOLVE A CROSS-WORD PUZZLE

When the correct letters are placed in the white spaces this puzzle will spell words both vertically and horizontally. The first letter in each word is indicated by a number, which refers to the definition listed below the puzzle. Thus No. 1 under the column headed "horizontal" defines a word which will fill the white spaces up to the first black square to the right, and a number under "vertical" defines a word which will fill the white squares to the next black one below. No letters go in the black spaces. All words used are dictionary words, except proper names. Abbreviations, slang, initials, technical terms and obsolete forms are indicated in the definitions.

POEM BY EDDIE GUEST

You cannot gather every rose,
Nor every pleasure claim,
Nor bank in every breeze that blows,
Nor play in every game.
No millionaire could ever own
The world's supply of pearls:
And no man here has ever known
All of the pretty girls.
So take what joy may come your way,
And enjoy not your troubles,
Enjoy your share of fun each day
And leave the rest to others.
